

Interstate 10 Improvements -- Bullard Avenue Closure

A segment of Bullard Avenue under Interstate 10 will be closed from July 23 through early Spring 2008. To help speed construction and maintain a safer work zone, Bullard Avenue will be restricted from Van Buren to McDowell roads. Access to local businesses will be maintained while ADOT crews widen Bullard Avenue under I-10 and construct a new traffic interchange.

The Bullard Avenue Traffic Interchange project is part of an upcoming series of improvements for I-10 in the West Valley.

* business access maintained

SCHEDULED I-10 CONSTRUCTION PHASING

Spring 2007

Construction of new interchange at Bullard Avenue

Fall 2007

New lanes from Sarival Avenue to Loop 101 (Agua Fria Freeway)
(one general purpose lane, one HOV lane)
